POLAROID

Highlander CAMERA

It's the picture-in-a-minute camera millions have been waiting for. Now the fun, the excitement of lifting the finished pictures right from the back of the camera can be yours for much, *much* less than ever before. The Highlander costs less to own, less to operate.

REMEMBER... the thrill, the fun of seeing your pictures the last time you picked them up at your photo finisher's? Imagine that same thrill every time you take a picture! That's the miracle of a Highlander Camera — you see each picture as you take it. Remember also the disappointment of pictures that didn't come out and couldn't be retaken? This is never a problem with the Highlander. If you don't get exactly what you want the first time, you know right away, and can take it again before your chance is gone forever.
